

PRESSLOCK

SHELVES

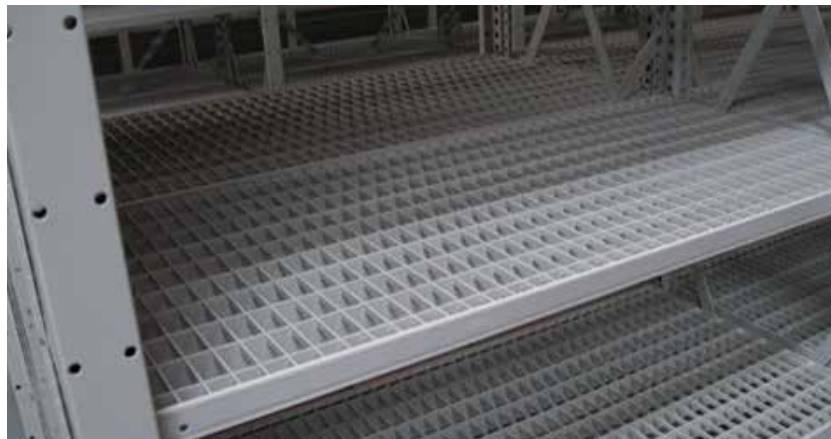

PressLock shelves offer a high percentage of open area and are available in various widths, lengths, and mesh patterns for extreme load capacities.

Shelf Features & Benefits:

- Lightweight carbon steel designed shelf for extreme point load and uniform distributed loading conditions
- Various widths, lengths and mesh patterns designed for your shelving system
- High percentage open area design allows for maximum visibility as well as air, light and sprinkler water penetration
- Flush top design provides a smooth surface for easy product handling
- Maximum visibility for quick inventory checks

PressLock is stronger than traditional punched metal shelving. ▶
